I Can't Do It For You

By Mia Bergmann, Keith Follese & Adrienne Follese

I hear the phone ring ring ringing  
I see the number and I know what it means  
I feel my heart beat beat beating  
I know it's gonna be  
Another tragedy  
I wish my answer could set you free

Chorus:

If I could walk on your shoes  
If I could get in your head  
If I could take the weight of your shoulders  
If I could give you some hope  
Somehow rescue your soul  
Let you know you're never alone  
There's not a thing in this world I would not do  
But I can't do it for you

I hear the clock tick tick ticking  
I know that time is running out on you  
Why can't you see the life you're living  
Is bad for both of us  
The distance hurts so much  
It almost feels like you've given up

Chorus

Bridge:

Only you can take the first step  
I know it hurts but take a deep breath

Chorus
