Burlington County

Ladies and Gents can I have your attention
There's a few things that I'd like to mention
But I'm not hear to preach to ya
I'm hear to teach to ya
It'll take a second, here's a lesson
Let me speak to ya

The word NO might lose you a couple friends
But the word YES can bring your whole future to an end
And you don't want to be a victim of this drug addiction
You want a paid scholarship, not a failed tuition to success
So take this advice that's been given from a self-made test
From what I've seen life is full of goals and dreams
So get this path of destruction out of our fellow teens
Cause it hurts to see a teen just to cope with drugs
When all he needs is a hope and a hug
Open arms and a coat full of love
But it's hard to get him off the block
If CD's and tapes are promoting drugs
Dealers don't care as long as they are still rolling on dubs
They're too blinded by the ice to see the hurt and drugs
But drugs plus alliance plus violence equals up to a messed up environment
Kids see you selling pills they think that they're vitamins
And that's how you invite them in
But I'm not trying to tell you dudes how to live your life
But you're dead a lot longer than alive, so live it right

It goes "N""O" to the "D""R""U""G""S" and

No we don't accept

It goes "N""O" so come join us on a quest

So we can just help to save the rest

It goes "N""O" to the "D""R""U""G""S" and

No we don't accept

It goes "N""O"

Let's put these drugs to the stop

And all my young people let's rise to the top

There's a leak on the streets and drugs flooded like it's raining

So stay afloat because we simply can't contain it

Hop on our boat cause it's over flooding the drainage

We simply can't contain it so let's just try to tame it.

And let's go on like spinning rims as they roll on

And stop drugs from the base like shoes with the soles gone

Control yourself to say no to drugs for your life

Cause drugs can control you to say no to life

I never knew there was a price on life

But there's a price on drugs that could end your life

So just open your eyes and use your sight

We know our rights from our wrongs

Our lefts from our rights, right

We don't want oppression to be destine for our younger generation

I'm guessin it's acceptance that's leading to depression

We need to hold it captive but keep the kids active

But inactive of drugs

It goes "N""O" to the "D""R""U""G""S" and

No we don't accept

It goes "N""O" so come join us on a quest

So we can just help to save the rest

It goes "N""O" to the "D""R""U""G""S" and

No we don't accept

It goes "N""O"

Let's put these drugs to the stop

And all my young people let's rise to the top
