

Dear Paul,

My husband and I can not thank you enough for the work you do regarding overdose emergencies using the Evzio kit. Your training class saved our son's life. We were at home on a Tuesday evening and I had just sat down to relax around 8 PM, I feel as though the Lord prompted me to go into my office which is directly over my son's room and in doing so I heard a strange noise. Assuming it was his TV I called him to turn it down but he didn't respond. I called my husband into the office so he could hear what I was hearing. My husband went downstairs to "wake him up" and found him in respiratory distress from an overdose of heroin. We immediately called 911, checked his airway, and then applied the Naloxone. Thanks to you and your training he started to revive before 911 even got to our home. We are haunted everyday as to what might have been if we did not take your training class. Thank you for being such a blessing to our family....we could never repay you for your selfless work you do everyday to help save lives. I am looking forward to our next training class.

Gods Love to you

Ron and Dotti Taylor
